

TGA Accreditation

Therapeutic Goods Administration

Credential brochure

GMPLEX manufactures and supplies medicines under Therapeutic Goods Administration (TGA) oversight, with an Australian manufacturing licence covering the dosage forms produced at our facility.

Scope of licence

Solid oral dose, packaging and secondary release activities performed at the GMPLEX site in New South Wales.

Inspection history

Routine TGA inspections with corrective action plans closed within agreed timeframes.

Product registration

Support for ARTG listing and registration dossiers, including CMC and stability data packages.

Documentation available

Manufacturing licence summary, site master file extract and ARTG listing references on request.
